Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-9 and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 4-5, "a portion of said first sleeve" and "a portion of said second sleeve" are indefinite because the applicant is trying to define the elements (14 and 15 from the drawings) that are connected to the first and second sleeves but from examiner's interpretation, the applicant is claiming the portion is located on edge of first or second sleeves. To overcome this rejection, the examiner proposes to add this language after the word "sleeves" in claim 1, line 3, to ---having an expandable engagement member,--- and replace all of "portion" to ---said expandable engagement member--- for clarification.

Claim 17, line 4, "a portion of said first sleeve" is indefinite because the applicant is trying to define the element (15 from the drawings) that is connected to the first sleeve but from examiner's interpretation, the applicant is claiming the portion is located on edge of the first sleeve. To overcome this rejection, the examiner proposes to add this language after the words "elongated rod;" in claim 17, line 3, to ---elongated rod, the first sleeve having an expandable

engagement member--- and replace “portion” to ---said expandable engagement member--- for clarification.

Claim 1, line 7 and claim 17, line 6, “and to cause radial expansion” is indefinite because it is not clear which elements, elongated rod or first sleeve, cause the radial expansion. It should be changed to ---wherein the elongated rod causes radial expansion--- for clarification.

Allowable Subject Matter

Claims 1, 3-9 and 17-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2 and 10-16 are allowed.
